University of Colorado, Boulder, CO

December 2021 - Present

Journey Leader

- Help 1000+ new students and families feel welcome at CU by sharing stories, answering questions, and directing them to resources, while using problem-solving skills to work through challenges.
- Set up for events including: decorating event spaces, setting up directional signs, lifting items, arranging furniture, etc.
- Represent CU Boulder in a positive way at all times while upholding campus policies and expectations.

College Hill Library, Westminster, CO

Summers 2017 - 2021

Lead Teen Volunteer

- Performed a variety of duties such as assisting with delivery and returns, withdrawing library materials from circulation and processing customer requests, while enhancing communication and customer service skills.
- Supported the Library Staff in various capacities by organizing special projects such as the annual summer reading program and community galas.

EXPERIENCE

Code With Klossy, Remote

April 2021 - August 2021

Mobile Application Development Instructor Assistant

- Selected from a competitive pool of applicants exhibiting proficiency in one or more programming languages and a passion for empowering young women and non-binary individuals.
- Collaborated with a team of instructors and 30+ instructor assistants throughout two-week summer coding camps to deliver lessons, provide technical support, and build an empowering community.
- Ensured scholar understanding and proficiency in Mobile App coding skills by responding to scholar feedback, facilitating remediation lessons, and supporting 200+ scholars throughout their Mobile Application Development.
- Fostered a positive, inclusive classroom culture by leading team-building activities and discussions about the culture of technology.

Code With Klossy, Denver, CO

Summers 2019 - 2020

Scholar

- Selected to receive a scholarship for a two-week, intensive summer program dedicated to educating and empowering young women and non-binary students in STEAM.
- Utilized Swift to develop an app that linked resources for its users on how to save the planet through small, but meaningful lifestyle changes (2020).
- Utilized HTML, CSS, and Javascript to develop an informational website to educate its users about mental health and link resources for those who need assistance (2019).
- Collaborated with other team members through software process and cycle, including pitching, wireframing, developing, and presenting the first iteration of our app and website.
